

# Money Transfer Operations

zendit helps remittance platforms move faster, offer more, and grow profitably, without adding infrastructure or overhead.

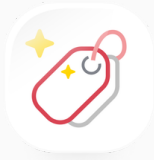

**At zendit, we enable remittance platforms to unlock new value beyond payouts.**

zendit lets money transfer companies move beyond traditional payouts by offering a range of instant digital products designed for modern cross-border use cases. Through a single integration, remittance providers can offer mobile top-ups, digital gift cards, and other digital products globally, giving senders and recipients more flexible ways to receive and use value.

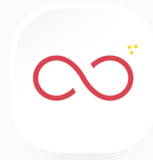

# We offer

zendit enables remittance platforms to expand beyond payouts through digital products.

**Incremental revenue streams**  
Add new revenue through digital products in the remittance flow.

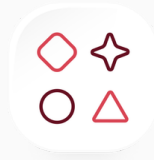

**Customer acquisition incentives**  
Drive sign-ups and first transfers with instant digital incentives.

**Loyalty and retention programs**  
Increase repeat usage with practical digital rewards.

**Bundling & promotions**  
Boost conversion with bundled digital products and targeted promotions.

**Corridor-specific optimization**  
Tailor digital offerings by country or operator.

## Access the Global Prepayment Ecosystem

zendit handles the complexity of operator integrations, routing, pricing, treasury, and scale, so you can expand your offering without the operational mess.
